

## ROUND TABLE “ENERGY EFFICIENCY FOR SCHOOLS”

On the 2<sup>nd</sup> of February 2011, **Round Table “Energy Efficiency for Schools”** took place in Ekaterinburg. This Round Table was the final event organised by “Development of the legislative foundation for the sustainable regional energy policy in the Sverdlovsk region” project (registration number G2G09RF61), financed by the Government of the Netherlands in the framework of intergovernmental programme “Government to Government” (G2G).

The project was implemented jointly by Agency NL of the Kingdom of the Netherlands and Institute of Energy Saving (INES) under the Ministry of Energy and Housing Utilities of the Sverdlovsk region. This project focused on increasing energy efficiency in buildings of municipal schools.

The project has achieved the following results: Analysis and Report on the existing problems and needs have been prepared; the Logical Framework Matrix reflecting the objectives, tasks, indicators and the required actions for improving energy efficiency in schools has been elaborated.

The experts of INES and Agency NL, the representatives of regional authorities (the Ministry of Energy and Housing Utilities, Ministry of Education, Ministry of Finance, Ministry of International and Foreign Economic Affairs of the Sverdlovsk region), municipal administrations and education departments, schools, housing utility companies participated in work of the Round Table. The event was also attended by the representatives of the Netherlands Business Support Office (NBSO) in Ekaterinburg and the Dutch consulting company Lighthouse.

The following topics were presented for further discussions: the project progress and results achieved, issues of legislation and behavioural aspects, comfort and microclimate in schools, involvement of teachers and pupils, new technologies of energy efficiency in schools, financial modalities and arrangements, energy service contract, the concept of “Green School” and others.
